

Partners in Training

Customised Training Courses Available

We provide customised **On-Site Training** courses. Training can be organised to suit shift work and we are flexible regarding this. Deciding on the “**BEST**” training option whether **Off the Shelf/ On-site Training** can be a difficult decision. Focus Engineering can provide you with assistance in choosing the best option.

We Custom Build Training Kits.

About Us:

Focus Engineering is an Automation/Electrical Engineering company which specialises in Industrial Automation Training. Using specifically designed Training Kits our team have developed workshops with particular emphasis on the practical hands-on customised approach.

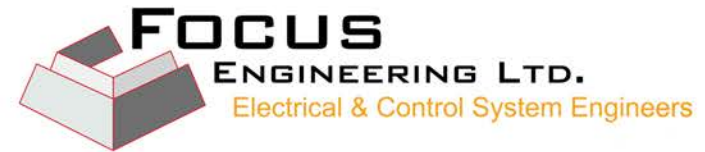

Instructor Des Foley, BSc. (Eng)

Des has worked in the Automation Industry for more than 25 years. He has been responsible for activities ranging from design, program development, testing and commissioning of PLC control systems to the management of automation projects as a Senior Projects/Automation Engineer.

1 Bridge Street, Kilkelly, Co. Mayo, Republic of Ireland.
